Orff Ensemble - Victoria Derybowski

All registration and nominations will be done through the IMEA website. Please register your school, each director and then nominate your students online. By registering the directors online, we will better be able to communicate with and serve the directors within our district.

To register your Elementary Level school and submit student nominations you must complete the following step:

Step 1 - Register your school on the "RNS" System at www.ilalldist.org

Most schools have been entered into the system and you simply need to go to the site and update your information.

If your school is not listed in the system follow these steps:

- A. Scroll to the end of school listings and select "SCHOOL NOT FOUND"
- B. Enter School information.

I will automatically receive an email notifying me of a new school request. After I approve it, the state office will be able to activate the school giving access to the student nomination forms.

The IMEA Elementary Festival Participation Fee is \$10.00 per student
